

Project Objective

- To develop a comprehensive credit card weekly dashboard that provides real-time insights into key performance metrics and trends, enabling stakeholders to monitor and analyze credit card operations effectively.

Dataset and Tools

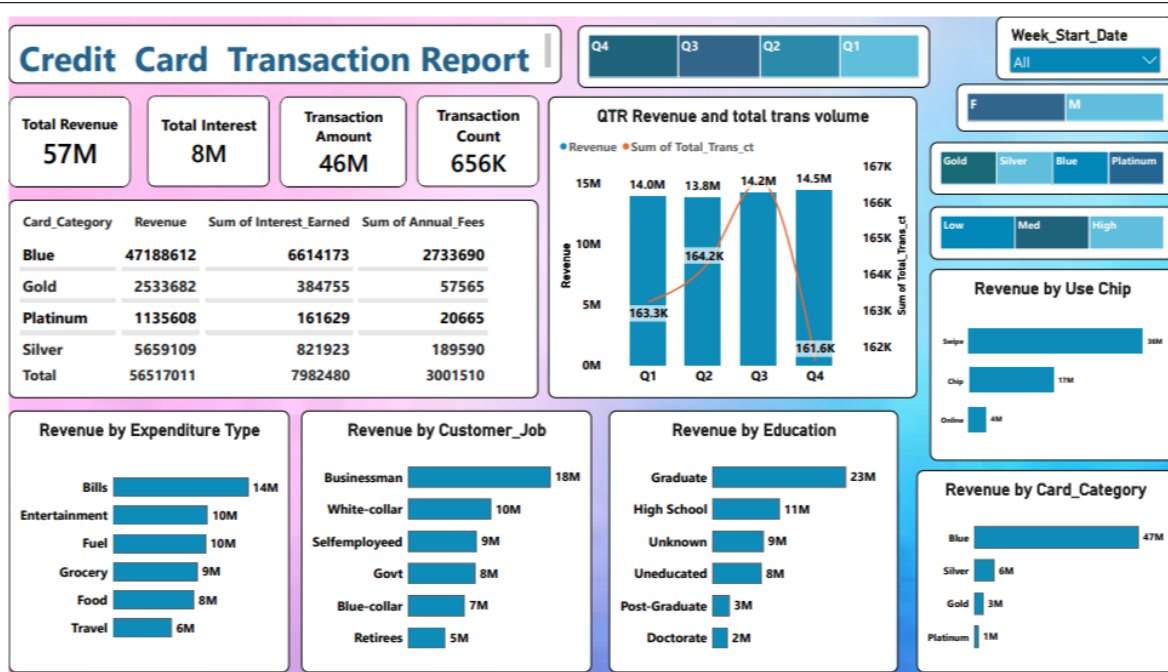

- Data: credit_card.csv (transactions) joined with the customer table on Client_Num
- Period: weekly data for 2023, Q1 to Q4
- Transaction fields: card category, annual fees, acquisition cost, transaction amount and count, interest earned, utilization, payment method, expense type, delinquency
- Customer fields: gender, age, job, education, income, state, marital status, dependents
- Revenue = Annual Fees + Transaction Amount + Interest Earned
- Tool: Power BI (CC Transaction, CC Customer pages)

Customer Report Dashboard

- Businessman is the top revenue job at 17.7M; Retirees are the lowest at 4.6M
- Male customers contribute 31M and female customers 26M
- TX, NY and CA together contribute 68% of revenue

Transaction Report Dashboard

- Revenue is steady across quarters, with Q4 is the highest revenue quarter at 14.5M
- Blue card generates 47.2M of the 57M total revenue
- Swipe is the top payment method at 36M
- Bills is the top expense type at 14M

Project Insights - Week 53 (31st Dec)

- WoW change: revenue increased by 28.8% (933,134 to 1,201,601)
- Overview YTD: overall revenue is 57M
- Total interest is 8M
- Total transaction amount is 46M
- Male customers contribute more revenue: 31M vs female 26M
- Blue and Silver cards contribute 93% of overall revenue
- TX, NY and CA contribute 68%
- Overall activation rate is 57.5%
- Overall delinquent rate is 6.06%
- Customers with 2 to 3 dependents contribute about 54% of revenue

Recommendations

- Upsell Gold and Platinum to high-limit, low-utilization Blue customers
- Run activation campaigns to lift the 57.5% activation rate
- Promote online spending, which is only 4M against 36M from swipe
- Focus acquisition on Businessman and White-collar segments
- Track the 6.06% delinquent rate by card and utilization band
